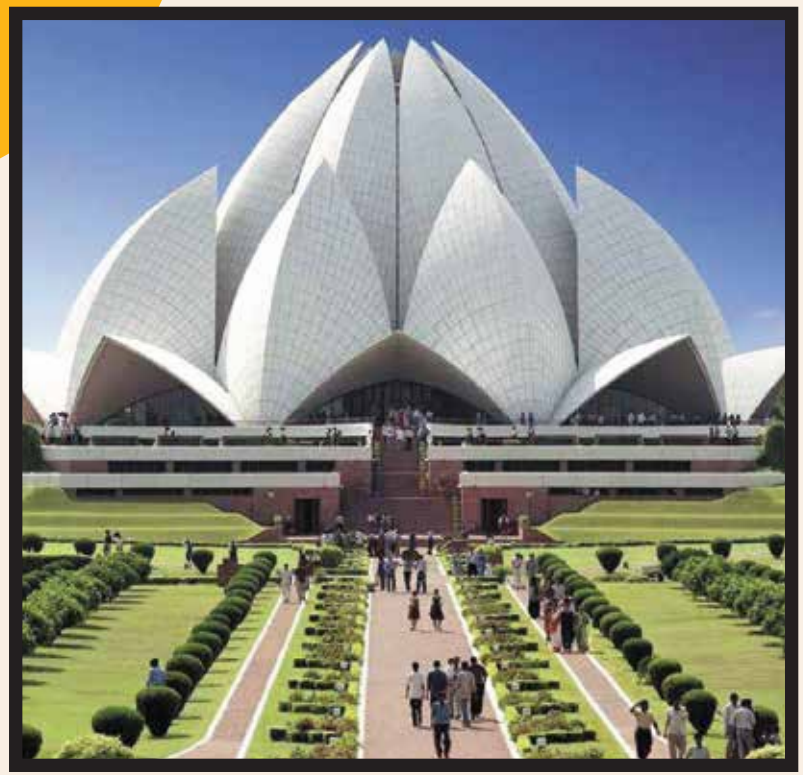
MYSTICLAND IN SCHOOL

Architects wow us with wonderful buildings

CHAPTER 7

BUILDINGS WITH A UNIQUE SHAPE



The Lotus Temple in New Delhi, India

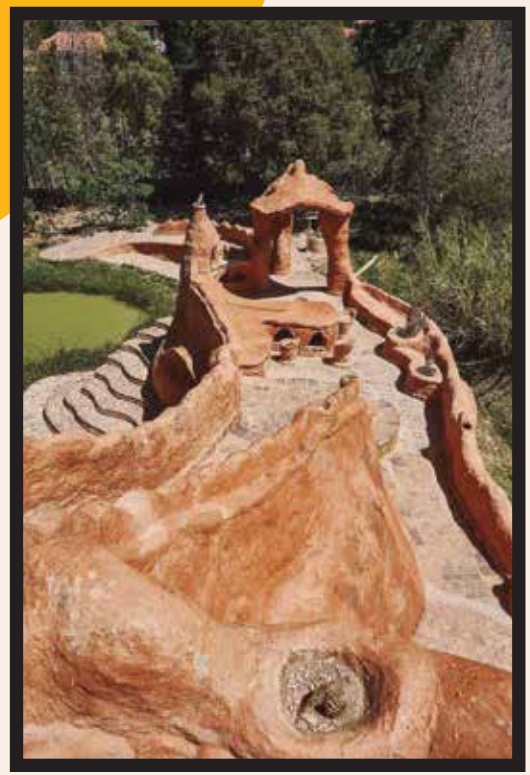
BUILDINGS WITH A UNIQUE SHAPE

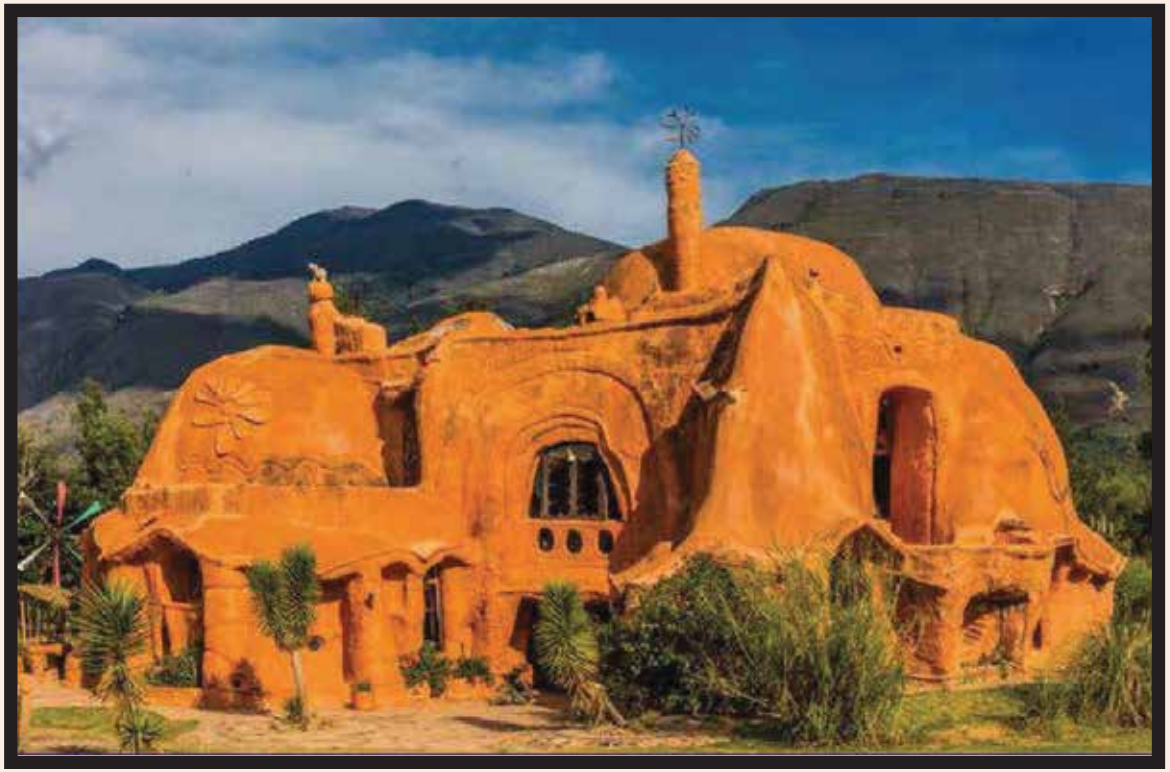
Zayed National Museum, Abu Dhabi, the United Arab Emirates. The wings represent those of the falcon bird, a national emblem of the country.

BUILDINGS WITH A UNIQUE SHAPE

The Basket Building, the United States

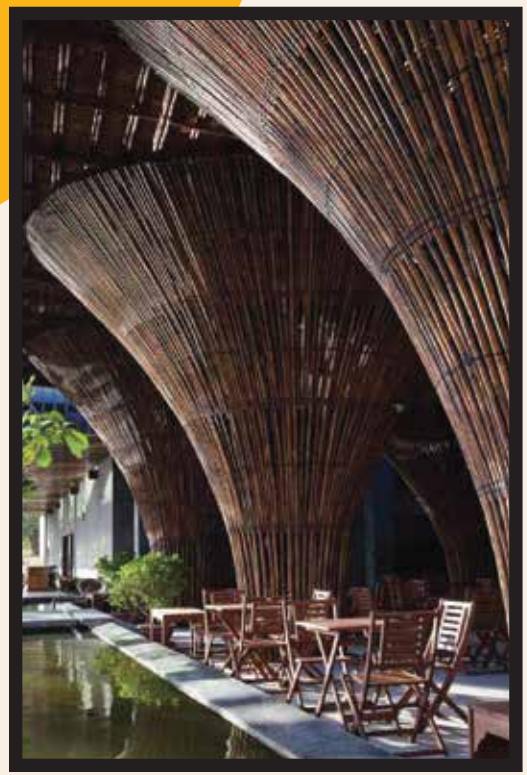
BUILDINGS WITH A UNIQUE SHAPE





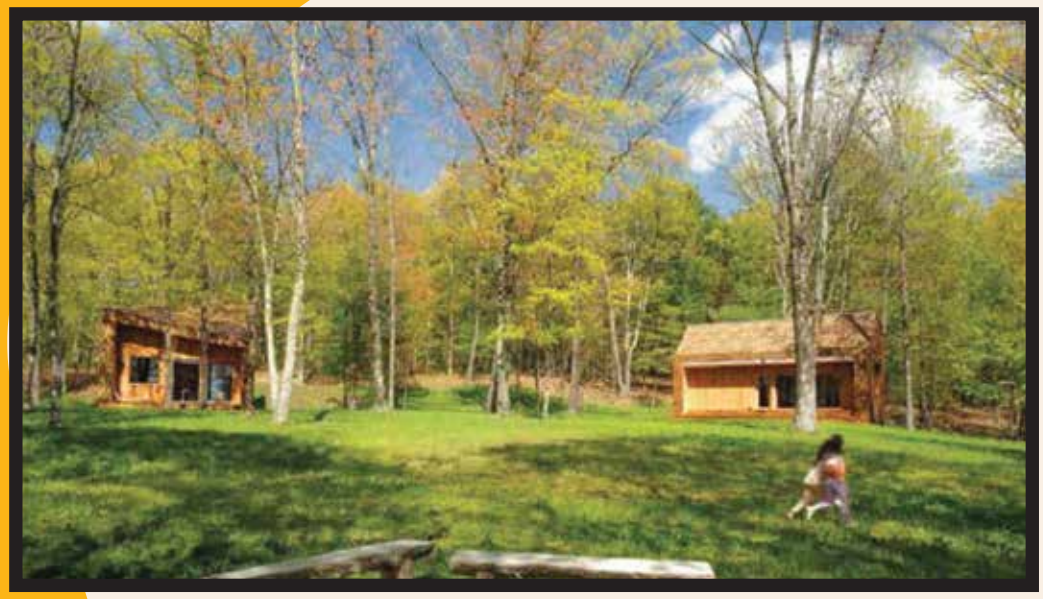
This house is made out of terracotta. Terracotta is a type of clay.

BUILDINGS WITH A UNIQUE SHAPE



Indochine Coffee Kontum, Vietnam
Made from bamboo

STRUCTURES BUILT WITH ECO-FRIENDLY MATERIALS



Guesthouses on a farm in New York, the US
Built with hempcrete bricks (bricks made
plants) and timber

STRUCTURES BUILT WITH ECO-FRIENDLY MATERIALS

The Glass Bottle House of Prince Edward Island, Canada. It is made from used glass bottles.

HOUSES BUILT AS PER LOCAL WEATHER

Houses built on stilts (poles) in India to stay safe from floods. We can find stilt houses in North East India.

HOUSES BUILT AS PER LOCAL WEATHER

Houses built underground in Switzerland for natural cooling- an ancient cooling system.

HOUSES BUILT AS PER LOCAL WEATHER

Your body heat is trapped inside an igloo. This keeps you warm. This is how the inside of an igloo looks.
