FIREFIGHTERS IN INDIA

CHAPTER 11

Firefighters are brave people who help save lives and stop fires.

The uniform of firefighters in India

The tools that help firefighters put out flames and stay safe.

FIRE FIGHTING EQUIPMENT

Firefighter hoses spray water super fast! They are very strong and do not break easily. They are made of thick rubber and fabric. Hence, they do not burst when water gushes out of them.

FIRE FIGHTING EQUIPMENT

Different fires need different extinguishers! There are red, blue, black, and yellow extinguishers, each for different types of fires like wood, oil, or electrical fires.

FIRE FIGHTING EQUIPMENT

Firefighter ladders can reach very high! Some fire truck ladders can go up to 100 feet - that is as tall as a 10-storey building!

FIRE TRUCKS

Fire trucks carry firefighters, water, and their equipment.

FIREFIGHTERS ARE OUR SUPERHEROES

It takes years to become a firefighter! Firefighters train for 3-5 years, learning how to fight fires, rescue people, and stay safe in dangerous situations."
